*Let's Play*  
**Bunco!**

**Monday, April 18<sup>th</sup>**  
**6:30p-8:30p**

**6:30p Drinks & Appetizers**  
**7pm Game Starts**

**\$16 members**  
**\$20 non-members**

**Call to reserve your spot!**  
**580-255-3281**

**You don't have to know how to play.**

The flyer features a central text area enclosed in a dashed black border. This area is surrounded by decorative borders: a top border with a pink wavy line and a bottom border with a pink wavy line. The corners and sides are decorated with black and pink dice, black and pink circles, and black and pink semi-circles. The background of the flyer is white.

# TIP FROM THE PROS

## What makes the ball start where it starts and curves?

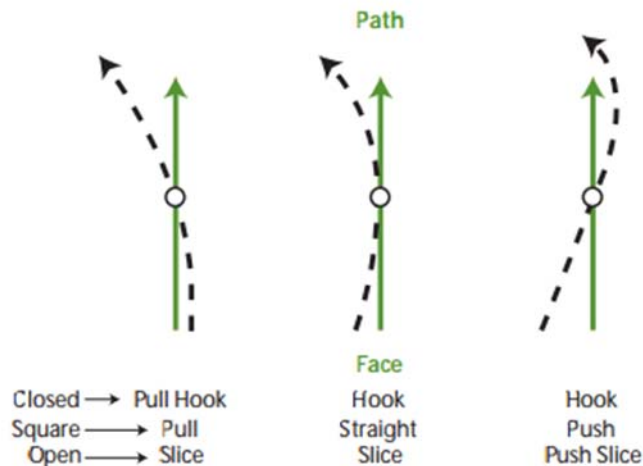

Nine possible flight directions may occur. These directions are determined by the club path, clubface position and ball velocity. The ball may fly in three directions - right, straight or left - with three-clubface

positions - open, square or closed. The combinations of these factors determine the initial direction and curvature of the ball in flight.

## Direction - The path of the swing

The direction of the ball's flight is caused by the direction of the club, with respect to the target line, as it moves through the ball. It's like throwing a ball at a target, the hand (in the case of a thrown ball) should point to the target at the release of the ball. The ball travels in the direction it is released. This concept applies to golf. For a right-handed golfer, if a shot goes to the left (a pull) the club was moving along a path that traveled to the left at impact. If the shot traveled right (push), the swing path was traveling right at impact.

## Curve - The position of the clubface at impact

The position of the clubface at impact determines whether the ball flies straight in the air. For a right-handed golfer, an open clubface produces a curve to

the right (slice) and a closed clubface produces a curve that curves to the left (hook).

# Junior Golf Corner

**Junior Golfers First WIN  
first match vs. OKC GCC**

# DEMO DAY

Wednesday April 22<sup>nd</sup> from 4-7PM

Come down and see the latest equipment from Callaway, Cobra, Ping & Titleist! Drinks and food will be available for purchase on the driving range.

## Rules Wizard

If you hit a ball in a water hazard marked with yellow stakes or lines, you can always drop within two club-lengths of where the ball last crossed the hazard's boundary.

**FACT:** Only hazards marked with red stakes or lines (lateral water hazard) allow you the option of dropping within two club-lengths, no closer to the hole. There are only three options when a ball enters a hazard marked by yellow stakes or lines:

1. Play it as it lies;

2. Replay from the previous position;

3. Drop a ball outside the hazard behind the point where the ball last entered it, keeping that point directly between the hole and the spot on which the ball is dropped. There is no limit how far behind that point you can drop. The last two options come with a one-stroke penalty.

# Starting April 17<sup>th</sup> – April 17<sup>th</sup> Titleist Loyalty Rewarded Promotion is Back!!!!

**LOYALTY REWARDED**

To Say Thank You for Trusting Your Game to Pro V1<sup>®</sup>, Purchase 3 Dozen Pro V1 or Pro V1x<sup>™</sup> and Receive 1 Dozen Free.
